

The Soap and Detergent Association and Industry

NATIONAL *Celebrates* Clean Hands Week

HAND HYGIENE: A simple way to stay healthy at school, at work, and at home! According to the Centers for Disease Control and Prevention, the single most important thing we can do to keep from getting sick and spreading illness to others is to clean our hands.

EASY WAYS TO KEEP THE GERMS AWAY

1

Wash your hands with soap and warm water, scrubbing for 20 seconds

2

When you are on the go and soap and water are not available, use wipes or hand sanitizers available in gel or foam

Good Hand Hygiene is Critical

When preparing food

Before meals and snacks

After using the restroom

After touching animals

When hands are dirty

When you or someone around you is ill
